## I. Purpose

To date more than 55,500 students have completed the Washington State University Writing Portfolio since it was first administered during Spring Semester 1993. Total participation in the Writing Portfolio for all years has almost doubled since 2001-2003 (Fifth Findings) and continues to increase biennially (section IV.A.2.a).

The Eighth Findings: June 2007-May 2009 continues to assess the effectiveness of the Washington State University Writing Portfolio and, in particular, examines progress made since 2003. This report describes and evaluates the Writing Portfolio and the Writing Assessment Program, and points to areas in which the assessment processes may be improved to better meet the needs of those involved with the Writing Portfolio. The report presents data on the Writing Portfolio that can be used in decision making by current and future administrators of the examination; campus-wide faculty, departments, programs and colleges involved in writing instruction; and those with oversight responsibilities, such as the Director of General Education, the Vice Provost of Undergraduate Education and the All-University Writing Committee, with regard to the writing abilities of WSU undergraduates.

## II. Rationale

The 2007-2009 evaluation of the Writing Portfolio represents an assessment of the program as a whole. A total of 9,854 students completed the WSU Writing Portfolio between June 1, 2007 and May 31, 2009. This represents an increase of 839 students from the last reporting period.

Some new trends started to appear in the 2007-2009 reporting period. During the 19992001 reporting period, the Writing Assessment Office undertook several activities, centered primarily on registration holds, to assist students in completing the Writing Portfolio requirement in a timely manner. Movement toward timely Portfolio submission was reported in the intervening reporting periods, and in 2007-2009 fewer submissions were received very late in students' academic careers. Another trend showed that the number of unsigned course papers submitted has continued to decrease, indicating that students are more often succeeding in obtaining instructor signatures. The number of courses represented by paper submissions, which increased from about 2,400 in 2003-2005 report to 3,250 in 2005-2007 (a $35 \%$ increase), rose by
an additional $29 \%$ to about 4,200 in 2007-2009. Some populations showed indications of bias related to sex with certain timed writing exam topics (section IV.B.3.), and the number of Portfolios submitted continued to increase (section IV.A.2.a.). Multi-lingual writers (L2) had higher percentages of needs work ratings and lower percentages of Pass with Distinction ratings. These trends and the factors that influence them are important elements in determining the effectiveness and efficiency of the Writing Portfolio.

The 2007-2009 report includes the addition of two new subsections that look at Portfolio performance in conjunction with student-reported self-identification with race description and first-generation college status. Nearly every section of this report contains analysis of the change of the Writing Portfolio over time. The timeframe chosen for this report dates back to 2003. This report presents data for the current and previous biennia based on updated core data. Readers are encouraged to consult previous biennial Writing Portfolio reports for additional historical context. Comparisons made herein are intended to provide readers of this report with insight into the Writing Portfolio over time. This report is recommended to serve as a source of base-line data and analytical methods for administrative use.

## III. Executive Summary

The Writing Portfolio portion of the Writing Assessment Program at Washington State University continues to be a model diagnostic writing program and, as such, shared in the Writing Program's honor in 2009 of being awarded with the "Writing Program Certificate of Excellence" for its university-wide accomplishments by the Conference on College Composition and Communication's (CCCC). In addition, Washington State University's Writing Program was listed among top national writing programs under "Academic Programs to Look For" in the category of "Writing in the Disciplines" in the 2010 issue of U.S. News \& World Report's "America’s Best Colleges." This summary provides conclusions supporting the Writing Portfolio's ability to guide and promote undergraduate writing in a university-wide setting. The summary also makes recommendations intended to assist the Writing Assessment Office with updating the Writing Portfolio in order to maintain it as a world-class diagnostic writing tool.

## III.A. Principal Conclusions

- Washington State University continues to have a robust and growing undergraduate curriculum that actively promotes writing across the disciplines.
- The number of courses represented by paper submissions has increased from over 3,250 in 2005-2007 to 4,200 in 2007-2009, a 29\% increase (Appendix C).
- The number of Writing Portfolio submissions per biennium continued to increase (section IV.A.2.a).
- Students are complying with the Writing Portfolio requirement later than the expected and optimal timeline.
- Since 2003-2005, the number of students completing the Writing Portfolio prior to the $75^{\text {th }}$ credit hour decreased $-2.8 \%$.
- Average credit hours at exam in 2007-2009 increased by one hour since 20052007 (Seventh Findings), rising to 84 hours. The average credit hours completed at exam was 84 credit hours over six years (2003-2009). This means that students are completing the Writing Portfolio within their junior year.
- Overall, $65.5 \%$ of students completed their Writing Portfolios after 75 credit hours in the 2007-2009 reporting period, up from 62.5\% in 2005-2007.
- A trend over six years of increasing percentages of pass ratings (outstanding and acceptable ratings combined) appeared for all students and increased to $90.4 \%$ in 2007-2009.
- Multi-lingual writers (L2) continued to display the need for additional writing support as evidenced by their performance on the Writing Portfolio. Efforts to aid multi-lingual speakers/writers were noticeable in some results and deserve commendation.
- L2 writers complied with Writing Portfolio timelines a slightly higher rate than L1 writers. For the 2003-2009 reporting period, L2 writers showed the greatest change in submission at 76-90 credit hours. This may be attributed to the diverse advising efforts of programs and individuals who work directly with multi-lingual writers to inform and assist students in the completion of their Writing Portfolios.
- L2 writers received needs work ratings at the Tier I level about twice as often as first language writers (L1) and needs work ratings at the Tier II level about three times as often as L1 writers.
- The addition of ratings data for students who self-identified with race description or firstgeneration college status provided additional means for evaluating the Writing Portfolio and to improve support for specific student populations.
- Students who self-identified with first-generation college status had a slightly higher percentage of needs work ratings at Tier II than did students who selfidentified with second-or-higher-generation status. The greatest difference in ratings occurred with pass with distinctions. The percentage of first-generation college students who earned pass with distinction ratings was half that of second-or-higher-generation college students.
- The Writing Assessment Program should be commended for its continuous efforts to monitor the Writing Portfolio and improve the Portfolio's support of student writing and learning.

## III.B. Recommendations for Action

The Writing Assessment Program continues to be a model writing program, but several issues need to be monitored in upcoming reports:

- Conduct a separate study that investigates the relationship between number of credits completed upon transfer and students' time to exam.
- Continue to monitor performance by students self-identifying with race description and also determine how students self-identify as first- and multi-lingual writers.
- Continue to monitor the number of unevaluated course paper submissions in the Writing Portfolio packets in order to extend the declining trend of unevaluated papers reported as compliance with the requirement becomes normalized.
- Pass with Distinction ratings for L1 and L2 students should be monitored for trends. While rater expectations may have increased with Portfolio reading experience and the growing maturity of the Writing Portfolio process, rater training for the Pass with Distinction rating should continue to stress high yet realistic standards that reflect writing expectations for risingjunior undergraduates.
- Timed essay prompts should be continuously monitored to ensure fairness to all participants.
- Faculty participation as paid readers should continue to be monitored. While the Writing Assessment Program has enough raters to complete the evaluations, a study of faculty participation in the Writing Assessment Program over time may help develop a better understanding of faculty work load in relation to rater recruitment and retention.
- Continue to monitor the trend toward decrease in the number of unsigned "okay" rated course paper submissions through efforts prompting students to obtain the original teacher's rating and signature on the paper or email verification.
- Suggest that disciplines talk about criteria for Acceptable and Outsanding ratings for papers submitted to the Junior Portfolio exam, and invite the Writing Program if assistance is needed.
- Monitor the following rating trends among specific student populations for rhetorical tasks:
- Increase in distinction ratings for Task 3 at the Tier I level for both males and females, with an increase in distinction ratings among females only at Tier II.
- Higher needs work ratings for males than females on Tasks 1, 2, and 4 at Tier II.
- Increase in gap between L2 transfer and non-transfer students for needs work ratings at Tier I.
- Decrease among L2 transfer students in distinction ratings at Tier II.
- Continue collecting data as has been done for this report.
- The 2005-2007 report responded to a call to consider alternative methods of examining the validity of the Writing Portfolio Assessment by reducing the timeframe under purview. Eliminating the bulk of historical analyses afforded the opportunity to consider a smaller data pool in more detail. The validity studies and other studies whould continue to be done but in addition to the established biennial report.
- The addition in the 2007-2009 report of performance by race description and firstgeneration college status corresponds with the 2005-2007 recommendation to conduct comprehensive investigations of Writing Portfolios submitted by various subsets of the participant population in order to address student writer needs more fully. Opportunities to expand such investigations should continue to be considered.
- Consider assessing rater and teacher participation through supplemental research. This model could become a compendium of reports that repeats over a series of years and combines to form, over time, an overview of the entire Writing Portfolio Assessment program. This compendium would be in addition to the established biennial report.
- Continue work on the existing FilemakerPro database to optimize data collection and analysis. The difficulty in compiling this information every two years is clear. Endeavor to create and standardize a process that is useable by personnel with
varying technical backgrounds and that can be maintained and updated as technology changes.

## IV. Findings

The Writing Portfolio Biennial Report provides data regarding the writing abilities of undergraduate students at Washington State University. When using the data in this report, readers should carefully examine the introductory paragraph for each table/chart for important information regarding the sources and reliability of the data presented in the table and/or chart.

## IV.A. Descriptive Findings

The descriptive findings section of this report offers insights into the status of student writing performance at Washington State University through the Writing Portfolio. The Writing Assessment Office draws the descriptive findings from an internal database. Various methods have been used to compile these findings, ranging from self-reporting of major and credit hours at exam time to direct data entry of scores for the timed writing and paper submission information.

The number of student exam-takers, represented as $N$, varies from study to study. Studies are conducted biennially and have been ongoing since 1993; however, the 2005-2007 departure from including historical data since the Writing Portfolio's inception is continued in the 20072009 report. The $N$ can vary given the number of students who may have completed the timed writing portion of the Writing Portfolio but have not yet finished it entirely, thereby resulting in different sample sizes for the various areas of study.

## IV.A.1. Average Time to Exam

The optimal time to exam for the Writing Portfolio ranges from 60-75 credit hours, and on the surface, the 2007-2009 report seems to indicate movement away from that goal. However, about $70.8 \%$ of total population self-identify as transfer students, which means that the majority of students are admitted into WSU at 60 credits or beyond. Data show a $2.8 \%$ decrease since the 2003-2005 reporting period in the percentage of students completing the Writing Portfolio before the $75^{\text {th }}$ credit hour and a $2.8 \%$ increase in the percentage of students completing the Writing Portfolio at and beyond the $76^{\text {th }}$ credit hour. The percentage of students completing the Writing Portfolio after 75 credit hours in the 2007-2009 reporting period is higher than in 2005-2007,
increasing by $3.0 \%$ to $65.5 \%$. A separate study of how many credits transfer students bring with them when transferring into the university might provide a fuller view of how the percentage of transfer students affect Writing Portfolio time to exam.

In Fall 2000, the Writing Assessment Office initiated aggressive steps designed to remind students to complete the Writing Portfolio at 60 credits. Some of the steps, like automatic billing of Writing Portfolio charges onto students' accounts and a registration hold at 60 credits, followed by another registration hold at 75 credit hours, have no doubt helped motivate students to complete the writing portfolio between 60 and 75 credit hours. To maintain the Writing Portfolio as a diagnostic tool, the Writing Assessment Office may consider focusing on the student classifications that show the least amount of improvement over time and take more aggressive steps with these students (section IV.A.1.a).

The 1999-2001 report contained a strong recommendation that at 45 credits, students receive an automated notice in METRO (since replaced by myWSU) that the Portfolio is due in the upcoming semester, that the first registration hold be placed when students who have not completed the portfolio attempt to register with 60 credits, and that the second, "hard" hold be levied at 75 credits. These portfolio-tracking mechanisms have been in place for the last two years. The study recommended above regarding the number of credit hours transfer students bring with them may explain in part what effect these notices have on transfer students and why fewer students submit the Portfolio between 60 and 75 credit hours, considered the optimum submission time.

## IV.A.1.a. Average Time to Exam—All Students

The four tables included in this section rely on the number of self-reported credit hours earned by students when they turned in the Writing Portfolio packet. When considering data in these tables, notice the differences in numbers of students between the biennial reporting periods and whether data are labeled as academic or calendar years. Writing Portfolio completion may also be described as "time to exam" since the exam is a required component of the Portfolio.

During the 2007-2009 reporting period, students completed their Writing Portfolios later in their programs. The $3.1 \%$ decrease in completion by the $75^{\text {th }}$ credit hour accelerated the $0.1 \%$ decline between 2003-2005 and 2005-2007. Other trends also suggested that students are completing their Writing Portfolios later in their programs. The largest percentage of students
still completed their Portfolios in the 76-90 credit hour range, and this number showed an increase over the 2005-2007 period. The trend moved away from the targeted range of 61-75 credit hours. In 2003-2005, the difference in percentage between submissions at 61-75 credit hours and 76-90 credit hours was $1.3 \%$, and in 2005-2007, the difference decreased slightly to $1.2 \%$. However, in 2007-2009, that gap widened to $3.3 \%$. While the change in Portfolio completion beyond 76 credit hours between 2003-2005 and 2005-2007 was negligible at $0.5 \%$, the overall change over six years (2003-2009) showed more students postponing completion beyond 75 credit hours ( $2.8 \%$ ). Most of that increase, $2.3 \%$, occurred during the 2007-2009 reporting period.

Overall, $63.9 \%$ of students completed their Writing Portfolios after 75 credit hours in 2008-2009, dropping from a high of $67.3 \%$ in 2007-2008 but continuing to exceed the $62 \%$ in 2006-2007 and 62.9\% in 2005-2006. Moreover, the overall change in Portfolio completion at 75 credit hours or less showed a $2.8 \%$ decrease in compliance over the three reporting periods spanning June 2003 to May 2009.

Time to Exam for All Students, Academic Period June through May

|  | Change <br> 05-06 to 08-09 | June 2008- <br> May 2009 | June 2007- <br> May 2008 | June 2006- <br> May 2007 | June 2005- <br> May 2006 |

| $\mathbf{6 1 - 7 5}$ hours | $-0.7 \%$ | $28.8 \%$ | $25.9 \%$ | $28.6 \%$ | $29.5 \%$ |
| $\mathbf{7 6 - 9 0}$ hours | $1.8 \%$ | $38.6 \%$ | $36.4 \%$ | $35.7 \%$ | $36.8 \%$ |
| $\mathbf{9 1 - 1 0 5}$ hours | $3.6 \%$ | $15.3 \%$ | $16.5 \%$ | $12.4 \%$ | $11.7 \%$ |
| $\mathbf{1 0 6}$ or more | $-4.4 \%$ | $10.0 \%$ | $14.4 \%$ | $13.9 \%$ | $14.4 \%$ |
| Unreported hours | $0.2 \%$ | $0.5 \%$ | $0.6 \%$ | $1.8 \%$ | $0.4 \%$ |

Time to Exam for All Students, Biennial Reporting Periods

|  | Change <br> 03-05 to 07-09 | $\mathbf{2 0 0 7 - 2 0 0 9}$ | $\mathbf{2 0 0 5 - 2 0 0 7}$ | 2003-2005 |
| :--- | :---: | :---: | :---: | :---: |
| \# of Students | 1756 | 9854 | 9015 | 8098 |
| $\mathbf{6 0}$ hours or less | $-2.5 \%$ | $6.8 \%$ | $8.2 \%$ | $9.7 \%$ |
| $\mathbf{6 1 - 7 5}$ hours | $-0.3 \%$ | $27.4 \%$ | $29.1 \%$ | $27.7 \%$ |
| $\mathbf{7 6 - 9 0}$ hours | $1.4 \%$ | $37.5 \%$ | $36.3 \%$ | $36.1 \%$ |
| $\mathbf{9 1 - 1 0 5}$ hours | $3.3 \%$ | $15.9 \%$ | $12.1 \%$ | $12.6 \%$ |
| $\mathbf{1 0 6}$ or more | $-1.9 \%$ | $12.1 \%$ | $14.1 \%$ | $14.0 \%$ |
| Unreported hours | $2.5 \%$ | $0.6 \%$ | $1.0 \%$ | $0.5 \%$ |

In addition, a direct comparison was made between different student classifications for time to exam data. All students receive a registration hold at 60 credits or more, and they receive a second hold at 75 credit hours or more. During 2007-2009, 33.1\% of transfer students had completed their Writing Portfolio by the $75^{\text {th }}$ credit hour, compared to $36.5 \%$ of non-transfer students who completed Portfolios up to the $75^{\text {th }}$ credit hour.

In the 2007-2009 data for timely submission of Portfolios up to 75 credit hours, nontransfer students showed the highest compliance compared to all other student classifications at $36.5 \%$. The next highest percentages of students to complete Portfolio exams prior to 75 credit hours were females at $35.6 \%$ and multi-lingual writers (L2) at $35.3 \%$. The remaining classifications, compared and ranked in decreasing order of timely compliance, were first language (L1) (34.1\%), transfer (33.1\%), and male students (32.5\%). The percentage of students completing the Writing Portfolio before 75 credit hours for all classifications was $34.1 \%$.

Time to Exam-Comparison between student classifications, January 2007December 2009

|  | All | Males | Females | L1 | L2 | Transfer | Non-Transfer |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| \# of Students | 9916 | 4293 | 4635 | 8027 | 894 | 6151 | 2745 |
| $\mathbf{6 0}$ hours or less | $6.8 \%$ | $5.1 \%$ | $8.4 \%$ | $6.9 \%$ | $6.6 \%$ | $6.7 \%$ | $7.0 \%$ |
| $\mathbf{6 1 - 7 5}$ hours | $27.3 \%$ | $27.4 \%$ | $27.2 \%$ | $27.2 \%$ | $28.7 \%$ | $26.4 \%$ | $30.0 \%$ |
| $\mathbf{7 6 - 9 0}$ hours | $38.0 \%$ | $38.5 \%$ | $37.4 \%$ | $37.9 \%$ | $38.5 \%$ | $36.8 \%$ | $40.5 \%$ |
| $\mathbf{9 1 - 1 0 5}$ hours | $16.1 \%$ | $16.1 \%$ | $16.2 \%$ | $16.0 \%$ | $16.6 \%$ | $16.5 \%$ | $15.3 \%$ |
| $\mathbf{1 0 6}$ or more | $11.6 \%$ | $12.7 \%$ | $10.6 \%$ | $11.8 \%$ | $9.4 \%$ | $13.3 \%$ | $7.6 \%$ |
| Unreported hours | $1.2 \%$ | $0.4 \%$ | $1.9 \%$ | $1.3 \%$ | $0 \%$ | $1.7 \%$ | $0 \%$ |

In reviewing the percentage of students who completed the Writing Portfolio prior to 75 credit hours, one must also review the trends in change over time. The following table shows the change in time to exam by student classifications between 2003-2005 and 2007-2009. Plus and minus signs denote the direction of the change in time to exam for each student classification group. The number of students reported also represents the change in student participation in the Writing Portfolio for the classification listed. The shaded row highlights change in Portfolio completion between 61-75 credit hours, the optimal range for time to completion.

Change in Time to Exam by Student Classifications, 2003-2005 to 2007-2009

|  | All | Male | Female | L1 | L2 | Transfer | Non-Transfer |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| \# of Students | +1936 | +991 | +945 | +1588 | +331 | +1865 | +115 |
| $\mathbf{6 0}$ hours or less | $-2.8 \%$ | $-2.5 \%$ | $-3.0 \%$ | $-2.7 \%$ | $-3.0 \%$ | $-2.5 \%$ | $-4.7 \%$ |

| $\mathbf{9 1 - 1 0 5}$ hours | $+4.0 \%$ | $+4.9 \%$ | $+3.3 \%$ | $+2.3 \%$ | $+7.2 \%$ | $+3.9 \%$ | $+4.3 \%$ |
| $\mathbf{1 0 6}$ or more | $-1.8 \%$ | $-1.8 \%$ | $-1.8 \%$ | $-3.2 \%$ | $+.24 \%$ | $-1.7 \%$ | $-2.5 \%$ |
| Unreported hours | $-2.4 \%$ | $+3.0 \%$ | $-7.8 \%$ | $-0.2 \%$ | $+0.3 \%$ | $-2.8 \%$ | $-0.3 \%$ |

## IV.A.1.b. Average time to Exam-Transfer and Language Status

The next two tables present data on the time to exam by transfer/non-transfer and first language (L1)/multi-lingual writer (L2) classifications, and change over time between 2003-2005 and 2007-2009. All students have been informed to turn in their portfolios as close to 60 credits
as possible. In the past two biennia, the Writing Assessment Office has worked to inform students, regardless of their classification, concerning timely completion of the Writing Portfolio.

The first table reports student time to exam by transfer status and displays the amount of change in time to exam over three biennia, from 2003-2005 through 2007-2009. Transfer students have increased exam completion up to the $90^{\text {th }}$ credit hour by $1.8 \%$ since 2003-2005. Non-transfer students decreased exam completion by the $90^{\text {th }}$ hour by $-7.1 \%$. The decrease in non-transfer students' completion was established by the $75^{\text {th }}$ hour, with no additional change shown between the $76-90^{\text {th }}$ hours ( $0 \%$ ). The percentage of students delaying exam completion until the $91^{\text {st }}$ credit hour or later decreased among transfer students ( $-1.7 \%$ ), but increased among non-transfer students ( $7.1 \%$ ).

Time to Exam—Transfer vs. Non-Transfer Students, Biennial Reporting Period

|  | Change <br> 03-05 to 07-09 |  | $2007-2009$ |  | $\mathbf{2 0 0 5 - 2 0 0 7}$ |  | $\mathbf{2 0 0 3 - 2 0 0 5}$ |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

| $\mathbf{6 0}$ hours or less | $-2.0 \%$ | $-2.8 \%$ | $6.8 \%$ | $7.2 \%$ | $8.0 \%$ | $8.7 \%$ | $8.8 \%$ | $9.9 \%$ |
| $\mathbf{6 1 - 7 5}$ hours | $1.6 \%$ | $-4.3 \%$ | $26.4 \%$ | $29.7 \%$ | $26.0 \%$ | $35.2 \%$ | $24.8 \%$ | $34.0 \%$ |
| $\mathbf{7 6 - 9 0}$ hours | $2.2 \%$ | $0 \%$ | $36.3 \%$ | $40.4 \%$ | $34.4 \%$ | $40.0 \%$ | $34.1 \%$ | $40.4 \%$ |
| $\mathbf{9 1 - 1 0 5}$ hours | $1.6 \%$ | $7.0 \%$ | $16.4 \%$ | $15.1 \%$ | $13.5 \%$ | $9.4 \%$ | $14.8 \%$ | $8.1 \%$ |
| $\mathbf{1 0 6}$ or more | $-3.3 \%$ | $0.1 \%$ | $14.0 \%$ | $7.5 \%$ | $17.8 \%$ | $6.7 \%$ | $17.3 \%$ | $7.4 \%$ |
| Unreported hours | $6.0 \%$ | $0.4 \%$ | $0.7 \%$ | $0.6 \%$ | $1.0 \%$ | $.5 \%$ | $0.7 \%$ | $0.2 \%$ |

Reviewing time to exam data by language status showed that in the 2007-2009 biennium, $25.7 \%$ of L2 students and $27.9 \%$ of L1 students submitted Writing Portfolios after the $91^{\text {st }}$ credit hour. This indicated a lower rate of late submissions among L2 students than the 2005-2007 rate of $29.3 \%$ but higher than the 2003-2005 rate of 23.7\%. For L1 students, the 2007-2009 submission rate of $27.9 \%$ after the $91^{\text {st }}$ credit hour was higher than in the 2005-2007 reporting period ( $25.8 \%$ ), which had increased slightly ( $0.3 \%$ ) from the $25.5 \%$ submission rate in the 2003-2005 biennium.

Data for the past three biennia indicate overall movement away from completion of the Writing Portfolio within the optimal timeline. Submissions at or after the $91^{\text {st }}$ credit hour by L1
students increased $2.4 \%$ and by L2 students increased $2.0 \%$. However, these increases reflect a movement away from very late submissions. The number of L2 students who submitted Writing Portfolios after the $91^{\text {st }}$ credit hour decreased by -3.6\% overall in 2007-2009 from the 2005-2007 reporting period, and -5.6\% between 2003-2005 and 2005-2007. L2 students submitting at 106 or more hours in 2007-2009 decreased while submissions at 91-105 hours increased. Time to exam for L1 students in the 2007-2009 reporting period decreased -2.1\% at 91 or more hours from the previous reporting period. L1 students showed a trend, similar to L2 students, away from very late submissions toward late-yet closer to optimum-submissions. This trend may be due to the high percentage of transfer students submitting Portfolios. A separate study that investigates the relationship between number of credits completed upon transfer and time to exam is recommended.

Time to Exam— First Language (L1) vs. Multi-Lingual (L2) Speaking Students, Biennial Reporting Period

## IV.A.1.c. Average Time to Exam—Impact on Portfolio Rating

The four tables in this section present data on the impact on rating of the Writing Portfolio in relation to the time to exam between 2003 and 2009. The first table displays combined data from the 2003-2005, 2005-2007, and 2007-2009 biennia. The next three tables present separate data for each of the three biennia. At Tier I, timed essays are rated simple pass, pass with distinction, or needs work. Essays marked as pass with distinction or needs work progress to Tier II rating, shown as Final Results, where the Portfolio (the timed essay and paper submissions) is rated.

In all three biennia, students who submitted portfolios after completing 106 or more credit hours had the lowest percentage of final needs work ratings when compared to those who submitted portfolios at any other time to exam. In 2005-2007, needs work ratings for portfolios submitted at 106 or more credit hours increased $1.3 \%$ from the 2003-2005 rate of $7.0 \%$ to $8.3 \%$, which trended toward leveling of needs work ratings across categories. In 2007-2009, needs works ratings for portfolios submitted at 106 or more credit hours decreased to $7.4 \%$. For portfolios submitted at 60 and below credit hours and, particularly, for portfolios submitted at 76-90 credit hours, which showed $1.3 \%$ fewer needs work ratings, needs work ratings declined.

The impact on ratings in relation to change in time to exam from 2003-2005 to 20072009 showed the greatest increase in Tier I simple pass ratings among portfolios submitted at 106 or more credit hours, with increases recorded at other time categories. Fewer portfolios with unreported numbers of credit hours appeared within data. Among portfolios that progressed to Tier II rating (Final Results), simple passes increased in all categories of time to exam. Pass with distinction ratings decreased in all categories, with the largest decrease among those submitted at 106 or more credit hours. Needs work ratings decreased among portfolios submitted at 90 or fewer credit hours. Needs work ratings increased slightly ( $0.5 \%$ ) among portfolios submitted at 106 or more credit hours and decreased slightly ( $-0.6 \%$ ) between $91-105$ credit hours.

Change in Time to Exam, Impact on Rating, 2003-2005 to 2007-2009

## IV.A.1.d. Average Time to Exam-Gender Differences

Since 2003-2005, the number of credit hours completed at the time of Writing Portfolio submission has increased, with the greatest increases in submissions reported between 91-105 credit hours (3.3\%) and between 76-90 credit hours (1.8\%) (IV.1.A.1.a.). A difference in the change of credit hours completed at exam is shown for the variable of gender. For the three biennia from 2003-2009, males showed the largest increase in percentage of individuals submitting portfolios at the 91-105 credit hour range (4.9\%), while the greatest change for females was the $2.8 \%$ increase in Portfolio completion at the 76-90 credit hour range, followed closely by a $2.0 \%$ increase at the 91-105 credit hour range. However, submissions by females between $61-75$ credit hours decreased $-10.0 \%$, exceeding the change in submissions by males ($1.1 \%$ ) by almost $-9 \%$. Even so, in 2007-2009 students in both gender categories submitted portfolios at 61-75 credit hours at the same rate, $27.3 \%$. Overall in 2007-2009, a higher percentage of females ( $35.6 \%$ ) completed the Writing Portfolio before the $76^{\text {th }}$ credit hour than did males (32.4\%). The trend over three biennia among both females and males is toward a smaller percentage of submissions at 75 hours or less and a greater percentage between 76-105 hours. Both genders showed a decrease in submissions at or after 106 credit hours, with females, at $11.2 \%$, submitting portfolios late slightly less often than males, at $13.2 \%$.

## IV.A.1.e. Departmental Difference in Mean Credit Hours at Exam

The following table provides the average time to exam by major. The table displays data from 2003 through 2009, as well as data for the 2007-2009 reporting period. From 2003 to 2009, all majors with 30 or more students had completed an average of 84 credit hours upon Writing Portfolio submission. During 2007-2009, the average was 84 credit hours. Thus, the average number of credit hours at Portfolio submission in 2007-2009 equaled the 2003-2009 average, confirming the leveling of mean credit hours at exam across departments.

Data reported in the time to exam by major table must be placed in context by the department in which the major resides. Majors that contain highly structured programs may provide more guidance for student submission and thus may display a higher or lower average time to exam than other majors. Also, majors that attract a high number of transfer students may have higher average credit hours because transfer students are allowed additional time to submit the Portfolio.

The trend for average credit hours at exam confirms the overall findings reported in section IV.A.1. The 84 credit hour average is still well above the desired 60-75 credit hour range desired, and efforts to reduce this average should be renewed.

Time to Exam by Major, May 2007- June 2009 and May 2003 - June 2009, Listed by Average Hours at Exam

| Major | Average Hours at Exam 2007-2009 | $\begin{gathered} \text { Students (n) } \\ \text { 2007-2009 } \end{gathered}$ | Average Hours at Exam 2003-2009 | $\begin{gathered} \text { Students (n) } \\ \text { 2003-2009 } \end{gathered}$ |

## IV.A.2. Compliance With the Examination

The 2003-2005 reporting period showed gains in the number of students completing the Writing Portfolio, reflecting increased enrollments at the university. The 2005-2007 reporting period showed, on average, a slight increase in the number of students completing the Writing Portfolio over the previous reporting period. The 2007-2009 reporting period showed continued growth in enrollment, with portfolio participation at just under 5,000 students per year.

## IV.A.2.a. Annual Change in Attendance for All Students

The number of Portfolio submissions trended upward in number between 2003 and 2009, reestablishing the steady increase from 1994 shown in the 2003-2005 Writing Portfolio Sixth Findings. The chart below shows that submissions increased slightly over the 2003-2004 and 2004-2005 reporting periods; increased in 2005-2006 and then dropped in 2006-2007; and increased again in 2007-2008 and 2008-2009. The 2008-2009 reporting period shows the highest participation in Portfolio submissions in the Writing Assessment Program's history. Overall, submissions between 2003 and 2009 trended upward in number.

Leveling in Writing Portfolio submissions was predicted after Spring 1997 due to the "grandfather" clause which stipulates that students matriculating before Fall 1991 are exempt from the Writing Portfolio requirement. Since then, fluctuations in participation may reflect changes in overall enrollment at WSU. Also, as time to exam decreases, the number of students completing Portfolios in a given year should more closely parallel the number of students eligible to complete in that year. As compliance increases, the extent to which the exam must play "catch-up" decreases.

## IV.A.2.b. Annual Change in Portfolio Assessment Participation for Multi-Lingual Writers (L2) and Transfer Students

The following table shows proportions of multi-lingual writers (L2) and transfer students to overall Portfolio participation between 2003 and 2009. L2 student participation in Portfolio Assessment increased in 2004-2005, dropped below 400 during the following three years, and increased in 2008-2009. The 2008-2009 reporting period shows the highest percentage of L2 students examined and 2006-2007 and 2003-2004 in a close tie for the lowest.

The number of transfer students participating in the Writing Portfolio has increased over the past two biennia. In 2003-2005, 5,440 transfer students participated, with an additional 582 in 2005-2007 and 795 in 2007-2009. The 2008-2009 reporting period shows the highest number of transfer students participating, and 2003-2004 shows the lowest. Transfer students accounted for $69.2 \%$, the greatest percentage of all students examined in 2008-2009.

Multi-lingual Speaking (L2) and Transfer Student Portfolio Completion
Percentages, 2003-2009

| Academic Year | L2 <br> Students | Percentage of all <br> Examined | Transfer Students | Percentage of all <br> Examined |
| :---: | :---: | :---: | :---: | :---: |
| $\mathbf{2 0 0 8 - 2 0 0 9}$ | 542 | $10.8 \%$ | 3465 | $69.2 \%$ |
| $\mathbf{2 0 0 7 - 2 0 0 8}$ | 395 | $8.1 \%$ | 3352 | $68.3 \%$ |
| $\mathbf{2 0 0 6 - 2 0 0 7}$ | 374 | $8.6 \%$ | 2944 | $67.7 \%$ |
| $\mathbf{2 0 0 5 - 2 0 0 6}$ | 382 | $8.0 \%$ | 3078 | $64.7 \%$ |
| $\mathbf{2 0 0 4 - 2 0 0 5}$ | 438 | $10.5 \%$ | 2793 | $67.8 \%$ |
| $\mathbf{2 0 0 3 - 2 0 0 4}$ | 376 | $9.4 \%$ | 2647 | $65.8 \%$ |

## IV.A.2.c. Completion of the Portfolio by Month

Writing Portfolio completion by month over the last six years showed stabilization in some months and upward or downward trends in other months. April continued to be the busiest month for Portfolio submissions, and over the last six years, November and December submissions remained high due to the implementation of winter graduation. High November submissions also coincide with early registration for spring, as do April submissions with summer and fall registration. Students who have registration holds placed on their accounts must schedule an exam time in order to register for the upcoming semester. Portfolio submissions decreased in the months of February and May over 2004-2008, and during those years, submissions increased in January. The May decrease in submissions may be attributed to spring graduation and the requirement that students complete the Junior Portfolio in order to receive a degree. This may have contributed, in turn, to the high percentage of April submissions. The January increase and February decrease may be explained by students having prepared portfolios for submission over winter break, with submissions shifting between the two months seen over time. For 2009 and 2003, percentages are distributed over six months rather than twelve-month periods and cannot be compared to the corresponding months in 2004-2008.

Writing Portfolio Completion by Month, June 2003 - May 2009

|  | $\begin{gathered} \text { Total } \\ n=27158 \end{gathered}$ | $\begin{gathered} 2009 \\ n=2617 \end{gathered}$ | $\begin{gathered} 2008 \\ n=4920 \end{gathered}$ | $\begin{gathered} 2007 \\ n=4709 \end{gathered}$ | $\begin{gathered} 2006 \\ n=4472 \end{gathered}$ | $\begin{gathered} 2005 \\ n=4506 \end{gathered}$ | $\begin{gathered} 2004 \\ n=4088 \end{gathered}$ | $\begin{gathered} 2003 \\ n=1846 \end{gathered}$ |

| November | 16.3\% | n/a | 15.4\% | 20.2\% | 16.2\% | 19.0\% | 16.6\% | 25.2\% |
| December | 10.9\% | n/a | 10.9\% | 8.9\% | 8.7\% | 9.6\% | 11.1\% | 38.9\% |

## IV.A.3. Performance

The following section provides data on student performance on the Writing Portfolio.

## IV.A.3.a. Portfolio Performance Over the Years for All Students

The following three tables provide data on overall performance by students on the Writing Portfolio over the last six years. The Portfolio evaluation uses a "Two-Tiered Expert Rater" methodology. The first tier comprises individual instructor evaluations of course papers (Part I of Tier I) and evaluation of the timed writing (Part II of Tier I) by paid faculty readers. The second tier is the evaluation of the entire Portfolio (Tier II), which constitutes the "Final Rating."

Course submissions. Instructor evaluation of course writings submitted for the Writing Portfolio results in three possible ratings. Instructors rate papers as "Outstanding," or "Acceptable"; when a paper is "Unacceptable," students cannot submit the paper. When the instructor of the course in not available to rate the paper, the Writing Assessment Office may assign the third category of "Okay" to a paper if it meets certain criteria. Students are strongly encouraged to get signatures from their instructors. The increase in the number of paper
submission okays continues to be closely monitored by the Writing Assessment Office. Since the Writing Assessment Office has more strictly enforced timely Writing Portfolio compliance, students often turn in papers not reviewed by the course instructor for a variety of reasons: (1) the paper was written at a community college, and so the teacher cannot be easily reached; or (2) the increase in the number of transfer students may partially account for the difficulty in returning to an original instructor for Writing Portfolio paper evaluation; or (3) the WSU faculty member has moved on because of different opportunities; or (4) the teacher was a graduate student who has completed study and left WSU. In any event, the evaluation of the course papers is an importantcomponent in the overall Portfolio evaluation. The trends noted here should continue to be monitored over time as compliance with the requirement becomes normalized.

Writing Portfolio Paper Submissions, 2003-2009

|  | Total <br> Submissions | Outstanding | Acceptable | Okay |
| :---: | :---: | :---: | :---: | :---: |
| $\mathbf{2 0 0 8 - 2 0 0 9}$ | 13,528 | $41.4 \%$ | $49.1 \%$ | $9.4 \%$ |
| $\mathbf{2 0 0 7 - 2 0 0 8}$ | 14,730 | $38.8 \%$ | $49.1 \%$ | $12.0 \%$ |
| $\mathbf{2 0 0 6 - 2 0 0 7}$ | 12,903 | $33.0 \%$ | $42.1 \%$ | $24.8 \%$ |
| $\mathbf{2 0 0 5 - 2 0 0 6}$ | 13,051 | $29.1 \%$ | $37.7 \%$ | $33.0 \%$ |
| $\mathbf{2 0 0 4 - 2 0 0 5}$ | 12,344 | $29.9 \%$ | $35.8 \%$ | $34.3 \%$ |
| $\mathbf{2 0 0 3 - 2 0 0 4}$ | 11,983 | $28.6 \%$ | $37.7 \%$ | $33.7 \%$ |

The number of unsigned course papers, "okay" ratings, is decreasing. During 2008-2009, 9.4\% of Writing Portfolio paper submissions were assigned okays, the lowest percentage reported in six years and $24.9 \%$ lower than the peak in 2004-2005. This represents a $2.6 \%$ decline from 2007-2008 and is $15.1 \%$ below the six-year average of $24.5 \%$. During 2007-2008 and 2008-2009, percentages increased above the six-year averages of $33.5 \%$ for outstanding and $41.9 \%$ for acceptable paper submissions. The increased number of okays between 2003-2004 and 2004-2005 and decline thereafter may be attributed to rigorous efforts to ensure timely compliance with the Writing Portfolio requirement at mid-career. Efforts to get students to reach the original teacher to sign off on the paper, when it is possible, showed improved compliance.

In 2007-2008, 14,730 total annual paper submissions were reported, the greatest number in Writing Portfolio history. This number exceeded the previous year, 2006-2007, by 1,827 papers; the following year, 2008-2009, by 1,202 papers; and the average over six years of 13,090
by 1,640 papers. Viewed as biennia, a slight upward trend appeared. The 2005-2007 reporting period showed a $6 \%$ increase in paper submissions over 2003-2005, and the 2007-2009 reporting period showed an $8 \%$ increase over 2005-2007.

The next two tables provide data on the Tier I and Tier II ratings over the last six years. Both Tier I and Tier II rating data for 2006-2007, 2007-2008, and 2008-2009 showed leveling in acceptable ratings. When averaged by biennium, Tier I and Tier II outstanding and needs work ratings decreased over the three biennia. At Tier I, ratings percentages were exactly the same for the 2007-2008 and 2008-2009 reporting periods. Averaged over six reporting periods, Tier II ratings showed $7.7 \%$ for outstanding ratings, $81.8 \%$ for acceptable, and $10.5 \%$ for needs works. Compared to these averages, the 2007-2009 Tier II average ratings showed fewer outstanding ( $7.1 \%$ ) and needs work ( $9.5 \%$ ) ratings and more acceptable ratings ( $83.3 \%$ ). A trend over six years of increasing percentages of pass ratings (outstanding and acceptable ratings combined, with outstanding percentages quite low) appeared for all students: $88.1 \%$ in 2003-2005; $89.9 \%$ in 2005-2007; and 90.4\% in 2007-2009.

Tier I (Timed Writings) Ratings, 2003-2009

|  | Total Exams | Outstanding | Acceptable | Needs Work |
| :---: | :---: | :---: | :---: | :---: |
| $\mathbf{2 0 0 8 - 2 0 0 9}$ | 4,965 | $8.7 \%$ | $64.2 \%$ | $27.0 \%$ |
| $\mathbf{2 0 0 7 - 2 0 0 8}$ | 4,876 | $8.7 \%$ | $64.2 \%$ | $27.0 \%$ |
| $\mathbf{2 0 0 6 - 2 0 0 7}$ | 4,275 | $9.8 \%$ | $63.9 \%$ | $26.2 \%$ |
| $\mathbf{2 0 0 5 - 2 0 0 6}$ | 4,736 | $9.5 \%$ | $62.1 \%$ | $28.3 \%$ |
| $\mathbf{2 0 0 4 - 2 0 0 5}$ | 4,088 | $8.6 \%$ | $58.7 \%$ | $32.6 \%$ |
| $\mathbf{2 0 0 3 - 2 0 0 4}$ | 3,994 | $10.8 \%$ | $60.9 \%$ | $28.1 \%$ |

Tier II (Final Portfolio Review) Ratings, 2003-2009

|  | Total Portfolio <br> Submissions | Outstanding | Acceptable | Needs Work |
| :---: | :---: | :---: | :---: | :---: |
| $\mathbf{2 0 0 8 - 2 0 0 9}$ | 4,970 | $7.5 \%$ | $83.2 \%$ | $9.2 \%$ |
| $\mathbf{2 0 0 7 - 2 0 0 8}$ | 4,878 | $6.6 \%$ | $83.4 \%$ | $9.8 \%$ |
| $\mathbf{2 0 0 6 - 2 0 0 7}$ | 4,276 | $7.5 \%$ | $83.0 \%$ | $9.5 \%$ |
| $\mathbf{2 0 0 5 - 2 0 0 6}$ | 4,737 | $7.5 \%$ | $81.8 \%$ | $10.6 \%$ |
| $\mathbf{2 0 0 4 - 2 0 0 5}$ | 4,095 | $8.5 \%$ | $78.2 \%$ | $13.2 \%$ |
| $\mathbf{2 0 0 3 - 2 0 0 4}$ | 3,997 | $8.5 \%$ | $80.9 \%$ | $10.4 \%$ |

The number of students receiving needs work ratings for final Portfolio evaluations decreased in 2006-2007 to $9.5 \%$, increased by $0.3 \%$ in 2007-2008, and dropped $0.6 \%$ in 20082009. This suggested a leveling trend for needs work ratings over the three consecutive reporting periods ending in 2008-2009, which may be due in part to students complying with the Portfolio requirement later in their college career (IV.A.1.a.). Students who submitted portfolios late, between 91-105 credit hours, might have benefited from having a larger number of course papers from which to select for portfolio submission than had they submitted on time or early.

Additional coursework at the upper division level, completed after reaching a higher number of credit hours may have contributed to improved writing skills, and may also be reflected in fewer needs work ratings. Before more rigorous compliance efforts were put in place to assure that students get a better diagnostic evaluation of their writing than the gate-keeping evaluation that had occurred in many student Portfolios, weaker writers could put off submitting the Writing Portfolio for an additional year or so by ignoring the registration hold. These compliance efforts may have encouraged weaker students to submit on time.

## IV.A.3.b. Performance According to Transfer and Multi-Lingual Writer (L2) Status

In order to understand the Portfolio results by combination of student characteristics, an analysis of Tier I and Final ratings are reported for combinations of transfer and language status.

## Performance by Transfer and Language Status: 2007-2009

| Status | All | Tier I (Timed Writings) |  |  | Tier II (Final Portfolio Results) |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | Pass | Pass with <br> Distinction | Needs <br> Work | Pass | Pass With <br> Distinction | Needs <br> Work |
| Non Transfer / L1 | 2564 | $68.2 \%$ | $8.5 \%$ | $23.2 \%$ | $87.5 \%$ | $5.7 \%$ | $6.8 \%$ |
| Transfer / L1 | 5471 | $65.7 \%$ | $9.4 \%$ | $24.8 \%$ | $84.0 \%$ | $8.0 \%$ | $7.9 \%$ |
| Non-Transfer / L2 | 185 | $55.1 \%$ | $3.8 \%$ | $41.0 \%$ | $75.1 \%$ | $2.2 \%$ | $22.7 \%$ |
| Transfer / L2 | 723 | $41.2 \%$ | $4.0 \%$ | $54.7 \%$ | $67.7 \%$ | $3.9 \%$ | $28.3 \%$ |

Performance by Transfer and Language Status: 2005-2007

| Status | All | Tier I (Timed Writings) |  |  | Tier II (Final Portfolio Results) |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | Pass | Pass with <br> Distinction | Needs <br> Work | Pass | Pass With <br> Distinction | Needs <br> Work |
| Non Transfer / L1 | 2736 | $67.7 \%$ | $8.7 \%$ | $23.4 \%$ | $86.2 \%$ | $6.1 \%$ | $7.7 \%$ |
| Transfer / L1 | 5167 | $63.8 \%$ | $10.6 \%$ | $25.5 \%$ | $83.1 \%$ | $8.9 \%$ | $8.0 \%$ |
| Non-Transfer / L2 | 140 | $45 \%$ | $5.7 \%$ | $49.2 \%$ | $69.2 \%$ | $2.1 \%$ | $28.5 \%$ |
| Transfer / L2 | 600 | $39.3 \%$ | $4.8 \%$ | $55.8 \%$ | $61.5 \%$ | $3.2 \%$ | $35.3 \%$ |

Performance by Transfer and Language Status: 2003-2005

| Status | All <br> Students | Tier I (Timed Writings) |  | Tier II (Final Portfolio Results) |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | Pass with <br> Distinction | Needs <br> Work | Pass | Pass With <br> Distinction | Needs <br> Work |  |
| Non Transfer / L1 | 2251 | $62.1 \%$ | $9.2 \%$ | $28.6 \%$ | $81.9 \%$ | $8.1 \%$ | $10.0 \%$ |
| Transfer / L1 | 3910 | $60.2 \%$ | $11.5 \%$ | $28.2 \%$ | $80.5 \%$ | $10.0 \%$ | $9.9 \%$ |
| Non-Transfer / L2 | 149 | $42.9 \%$ | $6.7 \%$ | $50.3 \%$ | $67.1 \%$ | $6.0 \%$ | $26.8 \%$ |
| Transfer / L2 | 639 | $37.0 \%$ | $4.1 \%$ | $58.8 \%$ | $59.7 \%$ | $3.6 \%$ | $36.6 \%$ |

The data on Portfolio performance by transfer and language status showed that the percentage of transfer and non-transfer multi-lingual students (L2) receiving needs work ratings decreased in 2007-2009 from the previous reporting period. During 2007-2009, L2 writers earned needs work ratings at the Tier I level about twice as often as first language writers (L1) and earned needs work ratings at the Tier II level slightly over three times more often than the overall population of Portfolio participants. In 2007-2009, L2 student portfolios were rated needs work at Tier II at a lower rate than in 2005-2007. Non-transfer L2 students' Tier II needs work ratings declined 5.8\% between 2005-2007 and 2007-2009, and transfer L2 students' Tier II needs work ratings declined $7.0 \%$ between the same reporting periods. A trend between 2003-2005 and 2005-2007 toward closing the gap between L2 transfer and non-transfer students for needs work ratings at Tier I (from a difference of $8.5 \%$ down to $6.6 \%$ ) reversed and widened to $13.7 \%$ in 2007-2009. Needs work ratings for L1 non-transfer students at Tier II decreased $0.9 \%$ during 2007-2009, while needs work ratings for L1 transfer students stabilized. Over the past six years, needs work ratings at Tier II have decreased for both transfer and non-transfer students.

Transfer and non-transfer L2 student portfolios were rated pass with distinction at Tier II in 2007-2009 at about the same rate as in 2005-2007, but non-transfer L2 student portfolios were
rated pass with distinction about a third as often in the 2005-2007 and 2007-2009 reporting periods as in 2003-2005. This corresponds with a similar leveling trend among L1 portfolios. L1 transfer and non-transfer student portfolios rated pass with distinction more often in 2003-2005, with a trend toward leveling in 2005-2007 and 2007-2009. These trends may be associated with higher expectations among seasoned raters for the pass with distinction rating or the kinds and quality of papers students chose for submission in the Writing Portfolio. Pass with distinction ratings for L1 and L2 students should continue to be monitored for shifting trends.

## IV.A.3.c. Performance of WSU Urban Campuses (2003-2009)

In viewing the data on urban campus performance, one must be careful not to make decisions regarding that data without understanding the characteristics of the different urban campuses. WSU has worked hard to create "one campus that is geographically dispersed," but each setting maintains a unique student base that may influence performance as a unit in the Writing Assessment Program.

Performance of Urban Campus Students, 2007-2009

| Status | All | Timed Writings |  |  | Final Portfolio Results |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | Pass | Pass with <br> Distinction | Needs Work | Pass | Pass With <br> Distinction | Needs Work |
| WSU Average | 7051 | $63.5 \%$ | $8.9 \%$ | $27.5 \%$ | $83.0 \%$ | $6.7 \%$ | $10.2 \%$ |
| DDP | 656 | $66.3 \%$ | $9.9 \%$ | $23.7 \%$ | $85.3 \%$ | $8.1 \%$ | $6.6 \%$ |
| ICNE | 61 | $63.9 \%$ | $3.3 \%$ | $32.7 \%$ | $86.8 \%$ | $3.3 \%$ | $9.8 \%$ |
| Spokane | 116 | $74.1 \%$ | $2.6 \%$ | $23.2 \%$ | $82.7 \%$ | $4.3 \%$ | $12.9 \%$ |
| Tri-Cities | 567 | $62.9 \%$ | $8.5 \%$ | $28.5 \%$ | $82.1 \%$ | $7.40 \%$ | $10.5 \%$ |
| Vancouver | 1391 | $67.2 \%$ | $8.1 \%$ | $24.6 \%$ | $84.2 \%$ | $9.0 \%$ | $6.8 \%$ |

Performance of Urban Campus Students, 2003-2009

| Status | All | Timed Writing |  |  | Final Portfolio Results |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | Pass | Pass with <br> Distinction | Needs Work | Pass | Pass With <br> Distinction | Needs Work |
| WSU Average | 20629 | $62.1 \%$ | $8.8 \%$ | $29.0 \%$ | $81.5 \%$ | $6.9 \%$ | $11.5 \%$ |
| DDP | 1617 | $63.0 \%$ | $13.9 \%$ | $23.0 \%$ | $83.6 \%$ | $9.7 \%$ | $6.7 \%$ |
| ICNE | 282 | $60.9 \%$ | $7.1 \%$ | $31.9 \%$ | $84.3 \%$ | $7.4 \%$ | $8.2 \%$ |
| Spokane | 200 | $69.0 \%$ | $7.5 \%$ | $23.5 \%$ | $82.5 \%$ | $7.5 \%$ | $10 \%$ |
| Tri-Cities | 1266 | $61.6 \%$ | $9.4 \%$ | $28.9 \%$ | $82.7 \%$ | $8.7 \%$ | $8.6 \%$ |
| Vancouver | 2909 | $65.5 \%$ | $11.0 \%$ | $23.3 \%$ | $83.0 \%$ | $11.3 \%$ | $5.5 \%$ |

Urban Campus Paper Submissions, 2003-2009

|  | 2007-2009 |  |  |  | 2003-2007 |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Campus | Acceptable | Outstanding | Okay | Acceptable | Outstanding | Okay |  |
| WSU Average | $38.7 \%$ | $47.4 \%$ | $13.8 \%$ | $32.1 \%$ | $39.3 \%$ | $28.4 \%$ |  |
| DDP | $40.2 \%$ | $43.1 \%$ | $16.5 \%$ | $28.0 \%$ | $37.3 \%$ | $34.6 \%$ |  |
| ICNE | $40 \%$ | $47.2 \%$ | $12.7 \%$ | $32 \%$ | $39.5 \%$ | $28.5 \%$ |  |
| Spokane | $36.4 \%$ | $46.3 \%$ | $17.1 \%$ | $33.3 \%$ | $35.6 \%$ | $31.0 \%$ |  |
| Tri-Cities | $39.5 \%$ | $41.8 \%$ | $18.6 \%$ | $34.9 \%$ | $32.7 \%$ | $32.2 \%$ |  |
| Vancouver | $44.3 \%$ | $42.5 \%$ | $13.0 \%$ | $42.5 \%$ | $42.5 \%$ | $14.9 \%$ |  |

## IV.A.3.d. Performance According to Gender

Male students continue to earn greater numbers of needs work ratings and lower numbers of pass with distinction ratings compared to females at the Tier I and Tier II levels. These differences are consistent with studies showing that females tend to outperform males in higher education in general.

Writing Portfolio Results, 2003-2009

|  | Tier I (Timed Writing) Results |  | Tier II (Final Portfolio) Results |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Pass | Pass w/ <br> Distinction | Needs Work | Pass | Pass w/ <br> Distinction | Needs Work |
| Female | $64.1 \%$ | $9.9 \%$ | $25.9 \%$ | $82.5 \%$ | $8.9 \%$ | $8.6 \%$ |
| Male | $60.6 \%$ | $8.8 \%$ | $30.5 \%$ | $81.3 \%$ | $6.3 \%$ | $12.4 \%$ |
| Combined | $62.5 \%$ | $9.4 \%$ | $28.1 \%$ | $81.9 \%$ | $7.7 \%$ | $10.4 \%$ |

## IV.A.3.e. Performance According to Race Description

The Eighth Findings marks the first biennium for which performance according to race description has been reported. Data regarding self-identification with race description were collected from students for statistical reporting purposes during the university application process and include first language and multi-lingual writers. The column labled "Not Indicated" includes students who opted not to self-identity with a listed race description. Performance according to race description should continue to be monitored for trends. Race descriptors match
as closely as possible the categories used to gather demographic data in the university's new and transfer student applications.

Tier I and Tier II Results, 2007-2009

|  | Number of <br> Race Description <br> Students <br> (n) | Tier I (Timed Writing) Results |  | Tier II (Final Portfolio) Results |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | Pass w/ <br> Distinction | Needs <br> Work | Pass | Pass w/ <br> Distinction | Needs <br> Work |  |
| Asian <br> American/Pacific <br> Islander | $\mathbf{6 9 6}$ | $59.1 \%$ | $6.5 \%$ | $34.5 \%$ | $81.6 \%$ | $5.3 \%$ | $13.1 \%$ |
| Black/African <br> American | $\mathbf{2 5 1}$ | $49.4 \%$ | $3.6 \%$ | $47.0 \%$ | $76.9 \%$ | $2.0 \%$ | $21.1 \%$ |
| White/Caucasian | $\mathbf{7 4 7 4}$ | $67.0 \%$ | $9.4 \%$ | $23.7 \%$ | $85.4 \%$ | $7.2 \%$ | $7.4 \%$ |
| Spanish/Hispanic | $\mathbf{5 2 0}$ | $61.3 \%$ | $8.1 \%$ | $31.2 \%$ | $83.1 \%$ | $5.2 \%$ | $11.7 \%$ |
| American <br> Indian/Alaska <br> Native | $\mathbf{1 3 3}$ | $63.2 \%$ | $9.8 \%$ | $27.1 \%$ | $81.2 \%$ | $9.0 \%$ | $9.8 \%$ |
| Not Indicated | $\mathbf{1 1 2 7}$ | $51.1 \%$ | $7.3 \%$ | $41.9 \%$ | $72.4 \%$ | $7.2 \%$ | $20.4 \%$ |

## IV.A.3.f. Performance According to First-Generation College Status

The Eighth Findings is the first biennial report that includes data on performance according to first-generation college status. Most students opted not to identify either as having firstgeneration or second-or-higher-generation college status. Among students who self-identified with generation status, first-generation college students appeared to have a slightly lower pass rate than second-or-higher-generation college students at Tier I but a higher rate at Tier II. Needs work ratings for first-generation students were $1.7 \%$ higher than second-or-higher-generation students at Tier II. The greatest difference in ratings appeared with pass with distinction ratings, where first-generation students received pass with distinction ratings half as often as second-or-higher-generation students. Performance according to first-generation college status should continue to be monitored for trends.

Tier I and Tier II Results, 2007-2009

| First-Generation <br> College Student? | Number of <br> Students <br> (n) | Tier I (Timed Writing) Results |  | Tier II (Final Portfolio) Results |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | Pass w/ <br> Distinction | Needs <br> Work | Pass | Pass w/ <br> Distinction | Needs <br> Work |  |
| Yes | 437 | $65.7 \%$ | $6.0 \%$ | $28.4 \%$ | $85.3 \%$ | $6.0 \%$ | $8.7 \%$ |
| No | 442 | $66.1 \%$ | $11.5 \%$ | $22.4 \%$ | $81.2 \%$ | $11.8 \%$ | $7.0 \%$ |
| Not Reported | 9339 | $63.7 \%$ | $8.8 \%$ | $27.6 \%$ | $83.1 \%$ | $7.0 \%$ | $10.0 \%$ |

## IV.A.4. Performance by Academic Area

The following analysis of academic areas-colleges and majors-is based on the 20032009 data. Students are asked to report their current choice of major at the time of Writing Portfolio submission. The Portfolio reflects the diverse writing skills under each academic situation. Therefore, looking at results by major may offer insight into the different disciplines and the compositional abilities or opportunities to write undergraduates have within a department.

## IV.A.4.a Summary of Overall Performance by College

The following analysis reflects Portfolio submissions from June 2003 through May 2009. Documentation distinguishes overall (Tier II) performance of first-language speakers (L1), multi-lingual speakers (L2), unreported language speakers, and a compilation of all three categories. Because each college and major creates an individual context for writing, comparisons between colleges and majors will not be made here. The data in the following table is for each college to use and interpret as it is relevant to their disciplinary contexts and conventions.

Overall Writing Portfolio Performance by College, 2003-2009

| Major | Language Status | Total | Pass |  | Pass with Distinction |  | Needs Work |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

## IV.B. Findings-Validational

The following section provides information that validates the Writing Portfolio as an assessment of undergraduate writing ability. The Writing Portfolio was designed to provide diagnostic feedback regarding the preparedness of undergraduate students to write in their upperlevel Writing in the Major courses. These areas of study were established in previous reports. Further validational studies which explore issues of validity more fully are done in separate research projects.

## IV.B.1. Performance by Academic Level of Papers Submitted

The Writing Portfolio requires students to submit three papers initially evaluated by course instructors for one of two categories: Outstanding or Acceptable. Faculty may decline to sign off on a paper if the quality of the writing is unsatisfactory. When the original course instructor is unavailable to rate the paper, the Writing Assessment Office assigns a third category of "Okay" indicating that the paper appears to be the student's own work because it contains features to authenticate it. An okay rating does not evaluate the quality of the writing.

## IV.B.1.a. Submitted Papers by Academic Level

The percentage of submitted papers per academic level was calculated for 2007-2009, and this information has been compared to previous results from prior reports. Data showed that students submitted fewer papers from 200-level courses but more from 100-level courses. The percentage of papers submitted from 100- and 200-level courses remained about the same as in 2005-2007.

Papers by Academic Level, 2007-2009

| Academic Level of Course | Number of Papers | Percent of Total Papers |
| :---: | :---: | :---: |
| $\mathbf{1 0 0}$-level | 9646 | $33.7 \%$ |
| 200-level | 5053 | $17.6 \%$ |
| 300-level | 8456 | $29.5 \%$ |
| 400-level | 5444 | $19.0 \%$ |
| 500-level | 41 | $0.1 \%$ |
| Total | $\mathbf{2 8 6 4 0}$ | $\mathbf{1 0 0 \%}$ |

## IV.B.1.b. Submitted Papers, Academic Level and Instructor Ratings

The following section examines ratings of course paper submissions for 2003-2009. Over the last three reporting periods, percentages of Acceptable (AC) increased for 100-, 200-, 300-, and 400-level courses but decreased at the 500-level. Outstanding (EX) paper ratings from all academic levels increased on average $8.8 \%$ in 2007-2009 over the 2005-2007 reporting period, and increased $18.0 \%$ since 2003-2005. The percentage of okay (OK) ratings decreased $25.6 \%$ on average from 2003-2005 to 2007-2009. For all academic level papers submitted, the percentage of Acceptable ratings increased on average 1.7\% between 2003-2005 and 2005-2007, and 5.8\% between 2005-2007 and 2007-2009.

The Acceptable ratings for 100-level paper submissions increased 9.7\% in 2007-2009 over the previous reporting period but, since 2003-2005, decreased $40.7 \%$ at the 500 -level, the greatest change at a specific level. Papers submitted from 300- and 400-levels during 2007-2009 received Acceptable ratings more than half the time ( $52 \%$ and $52.7 \%$ for each respective level), and Outstanding ratings less than $40 \%$ of the time ( $38.8 \%$ and $37.5 \%$ ). Papers submitted from the 100- and 200-levels during the 2007-2009 reporting period were rated Outstanding ( $40.9 \%$ and $40.6 \%$ ) slightly more often than in earlier reporting periods but rated Acceptable ( $42 \%$ and $46.6 \%$ ) less often than were 300 - and 400-level papers.

The Writing Assessment Office's efforts to monitor trends regarding Okay ratings appear to be succeeding, as shown in the large decreases in percentages of papers with Okay ratings over the past three biennia. Since the Writing Assessment Office began stricter enforcement of timely Writing Portfolio compliance, students often turned in papers not reviewed by the original course instructor for a variety of reasons: (1) the paper was written at a community college, and so the teacher could not be easily reached; or (2) the WSU instructor-of-record had moved on because of different opportunities. In any event, the evaluation of the course papers is an important component in the overall Portfolio evaluation. Efforts to get students to reach the original teacher to sign off on the paper when it is possible are succeeding and should be continued. The trends noted here should be monitored over time as compliance with the requirement continues to become normalized.

Course Paper Ratings by Academic Level, 2003-2009

|  | 2007-2009 |  |  | 2005-2007 |  |  | 2003-2005 |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Academic <br> Level of <br> Course | AC | EX | OK | AC | EX | OK | AC | EX | OK |
| 100-level | $42.0 \%$ | $40.9 \%$ | $17.0 \%$ | $32.3 \%$ | $30.8 \%$ | $36.8 \%$ | $26.6 \%$ | $26.1 \%$ | $47.2 \%$ |
| 200-level | $46.6 \%$ | $40.6 \%$ | $12.7 \%$ | $38.0 \%$ | $29.0 \%$ | $32.9 \%$ | $22.4 \%$ | $29.3 \%$ | $48.2 \%$ |
| 300-level | $52.0 \%$ | $38.8 \%$ | $9.07 \%$ | $43.2 \%$ | $34.6 \%$ | $22.0 \%$ | $34.7 \%$ | $22.9 \%$ | $42.3 \%$ |
| 400-level | $53.7 \%$ | $37.5 \%$ | $8.7 \%$ | $48.9 \%$ | $30.3 \%$ | $20.6 \%$ | $32.3 \%$ | $25.6 \%$ | $42.0 \%$ |
| 500-level | $48.4 \%$ | $39.3 \%$ | $12.1 \%$ | $50.9 \%$ | $28.3 \%$ | $20.7 \%$ | $89.1 \%$ | $3.1 \%$ | $7.8 \%$ |

## IV.B.2. Equivalency of the Rhetorical Tasks in the Timed Writing

Equivalency of the four rhetorical tasks for gender and language at the Tier I and II levels is provided below. The tasks described have been rotated through timed writing examinations. \#1 Resolving differences of view: "Read the passage by [author], printed below, very carefully. It expresses a point-of-view with which many people may well disagree. Indeed, on this complex issue there must be other viewpoints equally reasonable. The topic of your essay: How do you, personally, resolve the difference among these views?"
\#2 Solving complex problems: "Read the passage by [author], printed below, very carefully. The issue it introduces is quite complex. Indeed, the issue entails a number of problems. Center on one of the problems. The topic for your essay: How would you suggest solving the problem in a workable way?"
\#3 Analyzing issues more accurately or honestly: "Read the passage by [author], printed below, very carefully. It may well give a misleading picture. Clearly, the issue is complex and easy to over-simplify. The topic of your essay: How would you analyze the issue more fully or accurately or honestly?"
\#4 Choosing the best approach to an issue: "Read the passage by [author], printed below, very carefully. It deals with an issue that may have more sides to it than the passage suggests. Clearly there are other ways to approach this complex issue. The topic of your essay: Which angle would you argue is the most useful to take?'

In 2007-2009, Task 3 provided a higher degree of difficulty for all students at the Tier I level. With average Tier II needs work ratings at $9.4 \%$, Tasks 3 and 4 provided higher than average difficulty. Task 3 was also more difficult for multi-lingual speakers (L2) at the Tier I level. This reverses findings concerning Task 3 in the 2001-2003 reporting period (Fifth Findings) that showed L2 students had less difficulty with Task 3 than other tasks at Tiers I and II (further discussed in section IV.B.2.b.).

Task 3 has been used less often in recent years than the other three tasks because of its history of demonstrated difficulty for various populations. The Writing Assessment Office no longer administers Task 3, but Task 3 continues to appear in these reports because of the delayed effects of students having taken the timed writing when the task was in circulation and later submitting portfolios.

Task 2 provided the least difficulty for males and L2 students, with females finding Tasks 1 and 2 about equally low in difficulty.

## IV.B.2.a. Tests of Equivalency of the Rhetorical Tasks for All Students

The following analysis compares the differences between outcomes from June 2007-May 2009 and June 2003-May 2009 for the rhetorical tasks of the timed writing portion of the Writing Portfolio.

## IV.B.2.a.1. Tier I and Tier II Ratings—Equivalency of the Rhetorical Tasks

Tier I and Tier II ratings according to rhetorical task for 2007-2009 and 2003-2009 are presented in the following tables. Data is reported in these two groupings to allow for a comparison of current data (2007-2009) and recent historical data (2003-2009). Needs work ratings dropped at both Tier I and Tier II levels, consistent with the findings in section IV.A.3.a. These decreases suggest trends that should be monitored. In comparison to the average for 20032009 ratings, 2007-2009 Tier II pass ratings increased by $1.8 \%$ and pass with distinctions increased by $0.2 \%$. Needs work ratings dropped by $1.1 \%$.

Tier I (Timed Writing) and Tier II (Final) Ratings: All Students, 2007-2009

| Task | Tier I (Timed Writing) Rating |  | Tier II (Final) Rating |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Pass | Distinction | Needs <br> Work | Pass | Distinction | Needs <br> Work |
| \#1 Resolving | $66.5 \%$ | $9.07 \%$ | $24.4 \%$ | $83.1 \%$ | $7.6 \%$ | $9.3 \%$ |
| \#2 Solving | $63.2 \%$ | $8.6 \%$ | $28.1 \%$ | $83.6 \%$ | $7.0 \%$ | $9.40 \%$ |
| \#3 Analyzing | $68.0 \%$ | $17.0 \%$ | $14.8 \%$ | $76.5 \%$ | $12.7 \%$ | $10.6 \%$ |
| \#4 Choosing | $62.2 \%$ | $8.4 \%$ | $29.3 \%$ | $83.1 \%$ | $6.8 \%$ | $10.0 \%$ |

Tier I (Timed Writing) and Tier II (Final) Ratings: All Students, 2003-2009

| Task | Tier I (Timed Writing) Rating |  | Tier II (Final) Rating |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Pass | Distinction | Needs <br> Work | Pass | Distinction | Needs <br> Work |
| \#1 Resolving | $63.2 \%$ | $9.8 \%$ | $26.9 \%$ | $81.5 \%$ | $8.3 \%$ | $10.1 \%$ |
| \#2 Solving | $61.6 \%$ | $9.2 \%$ | $29.1 \%$ | $82.6 \%$ | $7.3 \%$ | $10.1 \%$ |
| \#3 Analyzing | $58.6 \%$ | $10.5 \%$ | $30.8 \%$ | $80.7 \%$ | $6.9 \%$ | $12.2 \%$ |
| \#4 Choosing | $60.7 \%$ | $8.8 \%$ | $30.4 \%$ | $80.9 \%$ | $7.8 \%$ | $11.3 \%$ |

Tier I (Timed Writing) and Tier II (Final) Ratings: Males Only, 2007-2009

| Task | Tier I (Timed Writing) Rating |  | Tier II (Final) Rating |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Pass | Distinction | Needs <br> Work | Pass | Distinction | Needs <br> Work |
| \#1 Resolving | $64.8 \%$ | $8.7 \%$ | $26.4 \%$ | $83.8 \%$ | $5.4 \%$ | $10.8 \%$ |
| \#2 Solving | $62.4 \%$ | $7.4 \%$ | $30.1 \%$ | $84.5 \%$ | $5.1 \%$ | $10.2 \%$ |
| \#3 Analyzing | $66.6 \%$ | $16.6 \%$ | $16.6 \%$ | $80.0 \%$ | $10.0 \%$ | $10.0 \%$ |
| \#4 Choosing | $61.0 \%$ | $8.2 \%$ | $30.8 \%$ | $82.1 \%$ | $6.1 \%$ | $11.7 \%$ |

Tier I (Timed Writing) and Tier II (Final) Ratings: Males Only, 2003-2009

| Task | Tier I (Timed Writing) Rating |  | Tier II (Final) Rating |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Pass | Distinction | Needs <br> Work | Pass | Distinction | Needs <br> Work |
| \#1 Resolving | $61.9 \%$ | $8.9 \%$ | $29.1 \%$ | $81.4 \%$ | $6.4 \%$ | $12.1 \%$ |
| \#2 Solving | $59.9 \%$ | $8.8 \%$ | $31.2 \%$ | $82.2 \%$ | $5.9 \%$ | $11.9 \%$ |
| \#3 Analyzing | $55.9 \%$ | $10.3 \%$ | $33.7 \%$ | $79.3 \%$ | $6.6 \%$ | $14.0 \%$ |
| \#4 Choosing | $59.2 \%$ | $8.2 \%$ | $32.4 \%$ | $79.8 \%$ | $6.7 \%$ | $13.4 \%$ |

Tier I (Timed Writing) and Tier II (Final) Ratings: Females Only, 2007-2009

| Task | Tier I (Timed Writing) Rating |  | Tier II (Final) Rating |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Pass | Distinction | Needs <br> Work | Pass | Distinction | Needs <br> Work |
| \#1 Resolving | $68.0 \%$ | $9.5 \%$ | $22.5 \%$ | $82.5 \%$ | $9.7 \%$ | $7.9 \%$ |
| \#2 Solving | $63.9 \%$ | $9.6 \%$ | $26.4 \%$ | $82.7 \%$ | $8.6 \%$ | $8.6 \%$ |
| \#3 Analyzing | $70.5 \%$ | $17.6 \%$ | $11.7 \%$ | $70.5 \%$ | $17.6 \%$ | $11.7 \%$ |
| \#4 Choosing | $63.3 \%$ | $8.7 \%$ | $27.9 \%$ | $84.0 \%$ | $7.5 \%$ | $8.5 \%$ |

Tier I (Timed Writing) and Tier II (Final) Ratings: Females Only, 2003-2009

| Task | Tier I (Timed Writing) Rating |  | Tier II (Final) Rating |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Pass | Distinction | Needs <br> Work | Pass | Distinction | Needs <br> Work |
| \#1 Resolving | $64.4 \%$ | $10.6 \%$ | $24.9 \%$ | $81.7 \%$ | $9.9 \%$ | $8.3 \%$ |
| \#2 Solving | $63.2 \%$ | $9.5 \%$ | $27.1 \%$ | $82.9 \%$ | $8.5 \%$ | $8.5 \%$ |
| \#3 Analyzing | $61.3 \%$ | $10.6 \%$ | $27.9 \%$ | $82.2 \%$ | $7.3 \%$ | $10.5 \%$ |
| \#4 Choosing | $62.0 \%$ | $9.4 \%$ | $28.5 \%$ | $81.9 \%$ | $8.7 \%$ | $9.4 \%$ |

The average percentage of needs work ratings for all four tasks between 2003 and 2009 was $10.9 \%$ at Tier II, with male needs work ratings $12.9 \%$ and female needs work ratings $9.2 \%$. For all students, needs work ratings were highest for Task 3 at $12.2 \%$, with Task 4 next highest at $11.3 \%$. Distinction ratings in 2007-2009 for Tasks 1, 2, and 4 were lower than the six year averages for both tiers. Females continued to outperform males at Tier 1 and Tier 2 levels with lower percentages of needs work ratings and higher percentages of distinction ratings. However,
in 2007-2009, Tier II averages for male pass ratings ( $82.6 \%$ ) exceeded those of female pass ratings ( $79.9 \%$ ) by $2.7 \%$.

Trends reported in 2007-2009 that should be monitored in future reports include: (1) higher distinction ratings for Task 3 than for other tasks at the Tier I level for both males and females, but at Tier II, distinction ratings were higher for females only; and (2) higher needs work ratings for males than females at Tier II on all tasks except Task 3.

## IV.B.2.b. Equivalency of Rhetorical Tasks for Multi-Lingual Writers (L2)

Because there is concern regarding the ratings of multi-lingual writers (L2) for the Writing Portfolio, it is important to review the rhetorical tasks by ratings at the Tier I and Tier II levels to ensure tasks are fair for this group of students.

Tier I (Timed Writing) and Tier II (Final) Ratings: L2 Students Only, 2007-2009

| Task | Tier I (Timed Writing) Rating |  | Tier II (Final) Rating |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Pass | Distinction | Needs <br> Work | Pass | Distinction | Needs <br> Work |
| \#1 Resolving | $43.9 \%$ | $5.9 \%$ | $50.1 \%$ | $68.1 \%$ | $4.0 \%$ | $27.8 \%$ |
| \#2 Solving | $42.1 \%$ | $3.1 \%$ | $54.7 \%$ | $68.7 \%$ | $2.7 \%$ | $28.5 \%$ |
| \#3 Analyzing | $50.0 \%$ | $10.0 \%$ | $40.0 \%$ | $50.0 \%$ | $10.0 \%$ | $40.0 \%$ |
| \#4 Choosing | $45.2 \%$ | $2.4 \%$ | $52.3 \%$ | $71.6 \%$ | $3.1 \%$ | $25.3 \%$ |

Tier I (Timed Writing) and Tier II (Final) Ratings: L2 Students Only, 2003-2009

| Task | Tier I (Timed Writing) Rating |  | Tier II (Final) Rating |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Pass | Distinction | Needs <br> Work | Pass | Distinction | Needs <br> Work |
| \#1 Resolving | $41.2 \%$ | $5.6 \%$ | $53.1 \%$ | $64.6 \%$ | $3.7 \%$ | $31.6 \%$ |
| \#2 Solving | $42.0 \%$ | $4.4 \%$ | $53.5 \%$ | $67.3 \%$ | $2.9 \%$ | $29.7 \%$ |
| \#3 Analyzing | $33.7 \%$ | $4.8 \%$ | $61.3 \%$ | $62.7 \%$ | $3.4 \%$ | $33.7 \%$ |
| \#4 Choosing | $40.0 \%$ | $3.6 \%$ | $56.3 \%$ | $64.2 \%$ | $3.7 \%$ | $32.0 \%$ |

At the Tier I level in 2007-2009, L2 students had lower percentages of needs work ratings for Tasks 1, 3, and 4 than the six year averages. L2 students had higher distinction ratings for Tasks 3 than the average and lower than the six-year average for needs work ratings in all but

Task 3. As Task 3 has been dropped from use, the number of Portfolio ratings including this task continues to decline and may explain why ratings percentages for this task in 2007-2009 are identical at Tiers I and II. L2 students showed a higher percentage of pass and distinction ratings for 2007-2009 compared to 2003-2009 averages and a lower percentage of needs work ratings. This trend should be monitored in future analyses.

## IV.B.2.c. Stability of the Rhetorical Tasks Over Time

The following table reports the use of rhetorical tasks over the last six years. From 20032009, Task 4 use was the most stable with a low-to-high range of 497 uses. Task 2 had the most variation with a low-to-high range of 1,310 uses. Task 3 continued to appear in low total numbers in comparison with the other tasks because bias for specific populations, noted previously, has led to its discontinuance, and portfolios including Task 3 are gradually being completed by students.

Number of Rhetorical Tasks Used by Academic Year: 2003-2009

| Task | $\mathbf{2 0 0 8 - 2 0 0 9}$ | $\mathbf{2 0 0 7 - 2 0 0 8}$ | $\mathbf{2 0 0 6 - 2 0 0 7}$ | $\mathbf{2 0 0 5 - 2 0 0 6}$ | $\mathbf{2 0 0 4 - 2 0 0 5}$ | $\mathbf{2 0 0 3 - 2 0 0 4}$ |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
| \#1 Resolving | 1,824 | 1,573 | 1,071 | 1,557 | $\mathbf{1 , 8 1 9}$ | $\mathbf{1 , 5 9 8}$ |
| \#2 Solving | 1,526 | 1,760 | 913 | 801 | 450 | 937 |
| \#3 Analyzing | 42 | 5 | 26 | 156 | 410 | 632 |
| \#4 Choosing | 1,334 | 1,334 | 1,095 | 1,106 | 1,298 | 837 |

## IV.B.3. Equivalency of the Topics

In the 2007-2009 reporting period, several ratings by topic remained unchanged while others show change over time.

Tier I Ratings, Ranked by Needs Work Rate, All Students, 2003-2009

|  | Topic |  |  | $\mathbf{2 0 0 7 - 2 0 0 9}$ |  | 2003-2009 |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | AC | EX | NW | AC | EX | NW |  |

| goods | Total $\%$ | $64.1 \%$ | $8.7 \%$ | $27.1 \%$ | $61.9 \%$ | $9.4 \%$ |  |
|  | 5958 | 812 | 2520 | 14226 | 2167 | 6562 |  |
|  |  |  |  |  |  |  |  |

Topic 21, America as a warrior nation, showed the highest percentage of needs work ratings for all students. This topic proved the most difficult of all topics for males and L2 students. Topic 32, sports clichés, had the second highest needs work percentage for all students as well as for males. Topic 3, zoos conceal human antagonism to animals, was the third most difficult prompt for all students, third for males, second for L2 students, and sixth for females. Topic 19, American higher education shows strong class, received a high percentage of needs work ratings among all students, which was noted in the 2003-2005 and 2005-2007 reports.

When looking at the relative difficulty of topics among specific populations, Topic 3, zoos conceal human antagonism to animals, posed the most difficulty for males, showing 6.3\% above the Males Only average of needs work ratings across all topics. Few females wrote exams based on the two topics that top the needs work ratings list for Females Only. However, a greater number of females wrote exams on Topic 32, sports clichés, which showed $11.7 \%$ above the Females Only average for needs work ratings.

The 2007-2009 L2 needs work ratings for individual topics were compared to the L2 average of needs work ratings for all topics (52.3\%). L2 writers struggled with Topic 21, America as a warrior nation, $31 \%$ higher than the average, and Topic 3, zoos conceal human antagonism to animals, $17.8 \%$ higher than average. L2 students found least difficulty with Topic 30, web makes research appear easy, $9.2 \%$ lower than average. L2 writers also struggled with Topics 26, information age; 14, malls lead to consumerism; 12, overworked employees; 34, Nebraska farmers; and 33, video games. At Tier I, Topic 27, banning offensive language, is absent from the L2 topics list as it is from Females Only. Topics 10, 15, 19, and 20 are absent from the L2 list due to few L2 exams on which to base comparisons.

An interesting clash of genders can be seen in Topic 26, information age, with data from about the same number of males and females having responded to it in 2007-2009. Males struggled the least with Topic 26 in 2007-2009 (9.1\%) when compared to all topics, but females received a higher percentage of needs work ratings for this topic (50\%) than for any other topic. Topic 14, malls lead to consumerism, near the bottom of the 2007-2009 rankings for males, showed $23 \%$ needs work ratings, $5.9 \%$ below the Males Only average for all topics, as compared to the $34.1 \%$ needs work ratings for females, $8.7 \%$ above the Females Only average for all topics and ranked near the top of the Females Only list. However, Topic 30, web makes research appear easy, rested near the bottom of both lists. Topic 30 posed fewer struggles for both males and females in 2007-2009 and appeared to demonstrate the gender neutrality of the topic among writers.

Topic 21, America as warrior nation, and Topic 32, sports clichés, were discussed in previous biennial reports as exhibiting disparate ratings according to gender and, as a result, have been scheduled for retirement from use, as are several other prompts but for a variety of reasons. Data for previously retired topics continue to appear in the 2007-2009 report as exams written in previous years proceed through the Portfolio review process. Topics scheduled to be retired in the 2009-2011 biennium following review by committee include: 7, taking photos of private citizens is unethical; 8, "Schools for Scandal"; 30, web makes research appear easy; 32, sports clichés; 34, Nebraska farmers; 35, living wage; 36, McDonaldization; and 37, immigration nation.

A deeper analysis of male, female, and multi-lingual writer ratings by topic are presented after the following table.

Tier I Ratings, Ranked by Needs Work: Males Only, 2003-2009

|  | 2007-2009 |  |  | 2003-2009 |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Topic | AC | EX | NW | AC | EX | NW |
| \#21 America as warrior nation | 40.0\% | 13.3\% | 46.6\% | 53.8\% | 12.1\% | 33.6\% |
| \#32 Sports clichés | 55.1\% | 8.19\% | 36.6\% | 57.2\% | 7.71\% | 35.0\% |

| \#10 American idea of success is acquisition of goods | 71.4\% | 14.2\% | 14.2\% | 56.4\% | 8.41\% | 35.0\% |
| \#26 Information age | 54.5\% | 36.3\% | 9.09\% | 59.8\% | 10.2\% | 29.9\% |
| Total \% | 62.8\% | 8.11\% | 28.9\% | 60.4\% | 8.78\% | 30.7\% |
| $N=$ | 2799 | 361 | 1289 | 6624 | 962 | 3364 |

As noted in section IV.A.3.d., male students have a greater chance of receiving a needs work rating than females. Reviewing male student ratings by topic provides little insight into the high percentages of needs work ratings. Male students struggled most in 2007-2009 with Topics 21, America as warrior nation; 32, sports clichés; and 3, zoos conceal human antagonism to animals. In the 2003-2005 and 2005-2007 biennial reports, Topic 22, immigration of wealthy
internationals, showed the greatest difficulty for males but is not listed among the topics of the 2007-2009 Tier I ratings.

Tier I Ratings, Ranked by Needs Work: Females Only, 2003-2009

|  | 2007-2009 |  |  | 2003-2009 |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Topic | AC | EX | NW | AC | EX | NW |
| \#26 Information age | 50.0\% | 0\% | 50.0\% | 54.3\% | 18.8\% | 26.7\% |
| \#19 American higher ed shows strong class bias | 60.0\% | 0\% | 40.0\% | 55.1\% | 13.0\% | 31.6\% |
| \#32 Sports clichés | 53.6\% | 9.1\% | 37.1\% | 51.6\% | 10.0\% | 38.3\% |
| \#21 America as warrior nation | 58.8\% | 5.9\% | 35.2\% | 58.9\% | 7.6\% | 33.1\% |
| \#14 Malls lead to consumerism | 51.2\% | 14.6\% | 34.1\% | 59.0\% | 11.1\% | 29.7\% |
| \#3 Zoos conceal human antagonism to animals | 60.8\% | 10.0\% | 29.1\% | 61.8\% | 10.2\% | 27.8\% |
| \#35 Living wage | 64.0\% | 6.8\% | 29.0\% | 64.3\% | 7.81\% | 27.8\% |
| \#9 Consumerism should not be spread | 64.0\% | 7.5\% | 28.4\% | 63.3\% | 8.16\% | 28.5\% |
| \#12 Overworked employees | 65.5\% | 7.9\% | 26.5\% | 65.6\% | 8.63\% | 25.6\% |
| \#36 McDonaldization | 63.9\% | 10.4\% | 25.5\% | 62.9\% | 13.4\% | 23.5\% |
| \#7 Taking photos of private citizens is unethical | 64.1\% | 10.6\% | 25.2\% | 63.1\% | 10.4\% | 26.4\% |
| \#37 Immigration nation | 67.1\% | 8.0\% | 24.8\% | 66.5\% | 7.94\% | 25.5\% |
| \#34 Nebraska farmers | 68.6\% | 7.4\% | 23.9\% | 66.8\% | 7.36\% | 25.7\% |
| \#8 "Schools for Scandal" | 67.8\% | 10.2\% | 21.8\% | 64.9\% | 11.1\% | 23.8\% |
| \#33 Video games | 67.0\% | 12.2\% | 20.4\% | 65.9\% | 12.3\% | 21.5\% |
| \#30 Web makes research appear easy | 70.4\% | 10.5\% | 18.9\% | 69.1\% | 11.1\% | 19.6\% |
| \#4 Read vs television | 64.8\% | 18.9\% | 16.2\% | 61.3\% | 10.8\% | 27.7\% |
| \#10 American idea of success is acquisition of goods | 50.0\% | 50.0\% | 0\% | 62.0\% | 7.61\% | 30.2\% |
| \#15 Television undermines book reading | 100\% | 0\% | 0\% | 64.6\% | 12.0\% | 23.2\% |
| \#20 Racial hate messages on campus | 50.0\% | 50.0\% | 0\% | 64.4\% | 10.4\% | 25.1\% |
| Total \% | 65.2\% | 9.3\% | 25.4\% | 63.3\% | 10.0\% | 26.6\% |
| $N=$ | 3159 | 451 | 1231 | 7599 | 1205 | 3197 |

Females struggled most with Topics 26, information age, and 19, American higher ed shows strong class bias, in 2007-2009 and 2003-2009. Females struggled least with Topics 10, American idea of success is acquisition of goods; 15, television undermines book reading; and 20, racial hate messages on campus. However, all five of these topics had low usage among females. Topic 14, malls lead to consumerism, appeared fifth from highest in the Females Only
needs work rankings, $8.7 \%$ above the Females Only average for all topics, and third from lowest in the Males Only rankings list, $5.9 \%$ below the Males Only needs work average for all topics. Topic 14 should continue to be monitored for trends suggesting gender bias. Several other topics showed above average percentages for needs work ratings among females for 2007-2009: Topics $3,35,9,12$, and 36 .

## IV.B.3.a. Multi-Lingual Students Performance by Topic

As reported in section IV.A.3.b., in 2007-2009 multi-lingual writers (L2) earned needs work ratings at the Tier I level about twice as often as first language writers (L1), and at Tier II, L2 writers earned needs work ratings about three times as often as the overall population of Portfolio participants, which is consistent with historical findings from previous reporting periods. Data in this section (IV.B.3.a.) confirmed the high rate of needs work ratings for L2 writers. Reviewing ratings by topic allows the Writing Assessment Office to identify topics that may cause L2 writers to experience an even greater chance of earning needs work ratings.

At Tier I, percentages of needs work ratings by topic in 2007-2009 were similar to those of 20032009. L2 writers struggled most with Topic 21, America as warrior nation, and Topic 3, zoos conceal human antagonism to animals. Ranked in the upper two-thirds of difficulty for L2 writers as indicated by needs work ratings, the following topics should continue to be monitored: 26 , information age; 32 , sports clichés; 14 , malls lead to consumerism; 12, overworked employees; 34, Nebraska farmers; 33, video games; 4, read vs television; 7, taking photos of private citizens is unethical; 36, McDonaldization; and 37, immigration nation. Similar to the general population, there seems to be little consistency among reporting periods regarding which topics prove to be the most difficult for L 2 writers.

Tier I Ratings, Ranked by Needs Work: L2 Students Only, 2003-2009

|  | 2007-2009 |  |  | 2003-2009 |  |  |

## IV.B.3.b. Tier II Ratings and Equivalency of the Topics

The following table compares the Tier II ratings and percentage of ratings reverting to pass from Tier I and Tier II between 2007-2009 and 2003-2009. The total number of ratings reverting to pass in 2007-2009 increased $0.6 \%$ over the 2003-2009 percentages. Several topics showed significantly higher rates of reverting to pass at Tier II during the 2007-2009 reporting period when compared to 2003-2009: Topic 15, television undermines book reading (23.9\%); Topic 19, American higher ed shows strong class (13.5\%); Topic 4, read vs television (12.9\%); Topic 14, malls lead to consumerism (8.9\%); and Topic 34, Nebraska farmers (7.2\%). Topics that showed the greatest decrease in needs work ratings at Tier I that reverted to pass ratings at the Tier II (Final) rating were Topic 10, American idea of success is acquisition of goods (28.2\%), and Topic 26, information age (18.7\%).

Tier II Ratings, Ranked by Percent Reverting to Pass: All Students, 2003-2009

|  | 2007-2009 |  |  |  | 2003-2009 |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

## IV.B.4. Cross-Disciplinarity of the Rating Corps

One hundred thirteen (113) raters from 35 departments participated in the Writing Portfolio Rating Corps in 2007-2009. This represents an increase over the previous reporting period of 52 raters and 8 departments. Appendix A lists recent raters by department.

## IV.B.4.a. Tier I Rating Corps-The Instructors.

In this reporting period, papers came from more than 4,200 different courses, and were read and signed off by instructional faculty. For this purpose, instructors re-read papers they assigned for their own classes and judged them as acceptable or outstanding for the Portfolio. Papers submitted for the Portfolio came from nearly every program at Washington State University. Appendix C provides a complete list of courses and departments from which papers were submitted.

## IV.B.4.b Tier I Rating Corps-The Timed Writing Raters

|  | Total Raters | Non-English | English or <br> Writing Program |
| :---: | :---: | :---: | :---: |
| $2007-2009$ | 113 | 79 | 34 |

More than two-thirds of all raters came from outside the English/Writing Program in 2007-2009. Eleven (11) new departments were represented, while 3 departments discontinued representation. New participants from sciences, mathematics, performing and fine arts, management, and teaching and learning communities increased the disciplinary diversity of the Rating Corps. This reverses a trend of attrition seen among raters in the 2005-2007 reporting period. Recruitment efforts for the 2007-2009 are to be commended. The productive approach to recruitment from all departments should continue, with strong emphasis placed on increasing and stabilizing the proportion of Non-English to English/Writing Program raters, specifically among the sciences and mathematics disciplines. A list of rater names and departments can be found in Appendix A.

## IV.B.5. Rating Sequences from Tier I to Tier II

Writing Portfolios pass through two sequences of evaluation and have the possibility of eight different rating combinations, as seen below.

1. Tier I Pass / Not read: The timed-writing essays are obviously passable, and given that the three course writings have been judged acceptable by the instructors, the entire Portfolio is rated "Pass," without further reading.
2. Tier I Pass/Tier II Pass: The timed writing is judged an obvious "Pass," but all three of the courses writings have been rated Outstanding; Tier II reading of the entire Portfolio rates it "Pass." Or, the timed writing is judged "Pass," but all three course papers were marked OK by the Writing Assessment Office-i.e., they were not rated by the course instructor; Tier II reading of the entire portfolio rates it "Pass."
3. Tier I Pass / Tier II Distinction: The timed writing is judged no better or worse than an obvious "Pass," but all three of the courses writings have been rated Outstanding; Tier II reading of the entire Portfolio rates it "Pass with Distinction."
4. Tier I Pass / Tier II Needs Work: The timed writing is judged no better or worse than an obvious "Pass," but upon consideration of the course writings, Tier II raters judge the entire Portfolio as "Needs Work." The Portfolio is rated at the Tier II level because none of the course papers were evaluated by the original instructors, resulting in an "Okay" designation by the Writing Assessment Office.
5. Tier I Distinction? / Tier II Pass: The timed writing is judged as especially distinguished, but upon consideration of the course writings, Tier II raters judge the entire Portfolio as "Pass."
6. Tier I Distinction? / Tier II Distinction: The timed writing is judged as especially distinguished, and on consideration of the course writings, Tier II raters judge the entire Portfolio as "Pass with Distinction."
7. Tier I Needs Work? / Tier II Pass: The timed writing indicates that the writer may possibly be in need of additional coursework in writing, but upon consideration of the course papers, Tier II raters judge the entire Portfolio as "Pass."
8. Tier I Needs Work? / Tier II Needs Work: The timed writing indicates that the writer may possibly be in need of additional coursework in writing, and upon consideration of the course papers, Tier II raters judge the entire Portfolio as "Needs Work."

## IV.B.5.a. Rating Sequences from Tier I to Tier II Over Time

In order to validate the reliability of the Portfolio, the rating sequence must remain stable over time. The following chart provides evidence of the consistency with which raters are performing within all rating categories.

Rating Sequences Over Time, All Students, 2003-2009

|  | $\mathbf{2 0 0 3 - 2 0 0 9}$ <br> $\mathrm{n}=\mathbf{2 7 , 1 4 5}$ | $\mathbf{2 0 0 8 - 2 0 0 9}$ <br> $\mathrm{n}=\mathbf{4 , 9 9 5}$ | $\mathbf{2 0 0 7 - 2 0 0 8}$ <br> $\mathrm{n}=\mathbf{4 , 9 1 1}$ | $\mathbf{2 0 0 6 - 2 0 0 7}$ <br> $\mathrm{n}=\mathbf{4 , 3 5 1}$ | $\mathbf{2 0 0 5 - 2 0 0 6}$ <br> $\mathbf{n = 4 , 7 5 8}$ | $\mathbf{2 0 0 4 - 2 0 0 5}$ <br> $\mathrm{n}=\mathbf{4 , 1 0 9}$ | $\mathbf{2 0 0 3 - 2 0 0 4}$ <br> $\mathrm{n}=\mathbf{4 , 0 2 1}$ |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 1. Pass/Not Read | $47.4 \%$ | $51.1 \%$ | $53.4 \%$ | $52.1 \%$ | $49.7 \%$ | $36.3 \%$ | $39.4 \%$ |
| 2. Pass/Pass | $42.9 \%$ | $44.9 \%$ | $41.1 \%$ | $40.9 \%$ | $42.1 \%$ | $41.5 \%$ | $46.4 \%$ |
| 3. Pass/Distinction | $8.9 \%$ | $9.7 \%$ | $9.2 \%$ | $10.2 \%$ | $9.7 \%$ | $7.7 \%$ | $6.9 \%$ |
| 4. Pass/Needs Work | $10.5 \%$ | $9.6 \%$ | $13.3 \%$ | $12.5 \%$ | $10.1 \%$ | $9.4 \%$ | $7.5 \%$ |
| 5. Distinction/Pass | $6.1 \%$ | $6.0 \%$ | $5.7 \%$ | $6.7 \%$ | $5.6 \%$ | $5.2 \%$ | $7.3 \%$ |
| 6. Distinction/Distinction | $2.9 \%$ | $2.3 \%$ | $2.6 \%$ | $3.0 \%$ | $3.6 \%$ | $3.0 \%$ | $3.2 \%$ |
| 7. Needs Work/Pass | $18.0 \%$ | $17.8 \%$ | $17.2 \%$ | $16.8 \%$ | $18.0 \%$ | $20.2 \%$ | $18.1 \%$ |
| 8. Needs Work/Needs Work | $9.8 \%$ | $8.9 \%$ | $9.6 \%$ | $9.1 \%$ | $10.1 \%$ | $11.9 \%$ | $9.5 \%$ |

Rating sequences over the past six years have been fairly consistent. A trend toward a higher percentage of Pass/Distinction began in 2005-2006 and stabilized somewhat from 2005 to 2009. A trend toward leveling in Pass/Not Read paralleled the Pass/Distinction increase over the same time period. In 2008-2009, an upward trend in Pass/Needs Work reversed, declining 3.7\% in the one-year reporting period. In 2003-2004, a trend began toward a lower percentage of Distinction/Distinction ratings, with a trend toward a lower percentage of Needs Work/Needs Work ratings beginning in 2005-2006. The 2007-2009 data suggest that these adjustments have settled into consistent rater performances and that ratings assigned between Tier I and Tier II are stable.

## IV.B.5.b. Rating Sequences from Tier I to Tier II—Multi-Lingual Writers

Students who identify themselves as multi-lingual writers have voiced fears that foreknowledge of language status will prejudice the reading corps. During the evaluation of the timed writing in the Tier I rating sequence, the identities of all are concealed. Raters are therefore unaware of specific language backgrounds of students. The anonymity of each student's native language provides an unbiased view of the trouble spots the rating corps encounters with any student's writing.

The following table represents the rating outcomes for all students who declared themselves as multi-lingual writers (L2).

Rating Sequences Over Time, Multi-Lingual Writers (L2), 2003-2009

|  | $\begin{gathered} 2003-2009 \\ n=2,505 \end{gathered}$ | $\begin{gathered} 2008-2009 \\ \mathrm{n}=542 \end{gathered}$ | $\begin{gathered} 2007-2008 \\ n=395 \end{gathered}$ | $\begin{gathered} 2006-2007 \\ n=373 \end{gathered}$ | $\begin{gathered} 2005-2006 \\ \mathrm{n}=381 \end{gathered}$ | $\begin{gathered} 2004-2005 \\ n=438 \end{gathered}$ | $\begin{gathered} 2003-2004 \\ \mathrm{n}=376 \end{gathered}$ |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 1. Pass/Not Read | 32.0\% | 37.4\% | 35.9\% | 36.4\% | 32.2\% | 23.9\% | 25.0\% |
| 2. Pass/Pass | 23.1\% | 25.8\% | 20.0\% | 23.0\% | 19.1\% | 22.3\% | 25.7\% |
| 3. Pass/Distinction | 2.3\% | 3.0\% | 2.5\% | 1.9\% | 1.8\% | 1.8\% | 2.7\% |
| 4. Pass/Needs Work | 15.6\% | 17.3\% | 17.9\% | 17.4\% | 17.5\% | 13.2\% | 10.6\% |
| 5. Distinction/Pass | 2.7\% | 1.8\% | 3.0\% | 3.8\% | 2.6\% | 3.2\% | 1.9\% |
| 6. Distinction/Distinction | 1.2\% | 0.7\% | 1.8\% | 0.8\% | 2.1\% | 0.7\% | 1.3\% |
| 7. Needs Work/Pass | 23.6\% | 25.8\% | 24.0\% | 19.5\% | 22.0\% | 23.9\% | 25.5\% |
| 8. Needs Work/Needs Work | 30.5\% | 24.3\% | 30.3\% | 32.7\% | 34.3\% | 34.2\% | 29.5\% |

Compared to rating sequences for all students, multi-lingual writers have consistently shown a higher percentage of final needs work ratings (see section IV.A.3.b). Data for 20032009 show that L2 students' portfolios were rated Needs Work/Needs Work three times more often than those of all students, and Pass/Pass half as often as all students. For 2003-2009, L2 student portfolios were rated Needs Work/Pass 1.3 times more often and Pass/Needs Work 1.5 times more often than all students. When compared to the 2003-2009 averages for L 2 writers only, Pass/Not Read ratings for L2 writers increased 5.4\% in 2007-2009, and Needs Work/Needs Work ratings declined 6.2\%.

## Appendix B: Portfolio Performance by Major and Language Status, 2007-2009

The following information is listed by college and academic major. English as a first-
language is designated by L1, those designating themselves as Multi-lingual Speakers are noted as L2; students not responding to the question are noted as UR.

Summary by Major

Percentages and performance on the timed-writing portion of the examination are provided only for majors with 10 or more responses.

College of Agricultural, Human, and Natural Resource Sciences
